PROFILE

A skilled Web Developer and proficient Java programmer with hands-on experience in building dynamic, responsive web applications. Experienced in developing scalable backend systems using Node.js, Express, MongoDB (Mongoose), and EJS, and delivering user-friendly interfaces. Strong in frontend and backend development, API integration, and writing clean, efficient, and maintainable code.

PROJECTS

Refokus
July 2023

- Developed a modern, responsive landing page using **React.js** with a clean component-based architecture.
- Implemented smooth and interactive animations using **Framer Motion** to enhance user engagement.
- Optimized UI performance by managing animation states and component rendering efficiently.
- Applied responsive design principles to ensure consistent experience across devices and screen sizes.

TechnoRO
Nov 2025-Present

- Built frontend features using **React.js** and **Redux Toolkit** with API integration.
- Managed global state, authentication, and async API flows.
- Improved UI/UX with responsive design and optimized performance.
- Collaborated with backend teams to debug APIs and align frontend requirements.

EXPERIENCE

Talentrise Technokrate Pvt. Ltd. - ReactJS Intern
SEP 2025-Present

- Built responsive UI components using React.js and Tailwind CSS
- Integrated REST APIs using Redux Toolkit for state management
- Managed async data flow with createAsyncThunk and optimized API calls
- Collaborated with backend teams to ensure seamless frontend–backend integration

EDUCATION

Samrat Ashok Technological Institute Vidisha (M.P)
2021-2025

Computer Science and Engineering
CGPA - 7.9/10

Class X (MP BOARD)
2019

Balaghat (M.P)
Percentage - 92.8 %

Class XII (MP BOARD)
2021

Balaghat (M.P)
Percentage - 92.4 %

SKILL

Frontend
- HTML
- CSS
- React
- Redux
- ReduxToolKit

Backend
- Express
- Node.js
- MongoDB
- JWT

Version Control
- Git
- GitHub
- CI/CD

Languages
- Java
- C
- JavaScript

Deployment
- Netlify
- Vercel
- Render
